

PRIME offers N-tron's Best-Selling Fully Managed 8-port Ethernet Switch - the 708TX

PRIME offers the **N-tron 708 TX Industrial Ethernet Switch**, a fully managed 8-port switch that is ideally suited for connecting Ethernet-enabled industrial and security equipment. At a **List Price of only \$599**, it is affordably priced to fit any networking budget while it offers outstanding management and monitoring features. Below are some of the highlights:

- Eight 10/100 BaseTX RJ-45 Copper Ports
- -40°C to 85°C Operating Temperature
- ESD and Surge Protection Diodes on all Ports
- Auto Sensing 10/100 Base TX, Duplex and MDIX
- IGMP Snooping to forward and filter multicast traffic intelligently
- VLAN to segment the switch in order to create two or more separate local area network domains
- Trunking, Port Mirroring and Rapid Spanning Tree
- Remote Monitoring Options
- N-Ring Technology with a standard healing time of ~30ms
