

PRIME Provides BANNER IP69K-Rated Products for the Food and Beverage Industry

In industries such as food processing, where hygiene and cleanliness is essential, equipment must be able to withstand rigorous high pressure and high temperature washdown procedures. Engineers in the food and beverage industry are turning to **Banner Engineering** for durable and resistant products that meet the stringent IP69K certification. Several of those products are highlighted below, but you can click [here](#) to take a look at Banner's entire IP69K-rated line. All of these products are available from **PRIME**.

QM26 & QMH26 Washdown & Hygienic Sensors

- Rugged, chemically resistant and food safe 316 stainless steel housing
- Made to last in the harshest high-pressure washdown environments and temperature cycling
- Stream-lined design with minimal cracks and crevices for a cleanable hygienic design
- ECOLAB certified for inexhaustible sensor life in chemically-cleaned environments
- Easy mounting for quick setup and installation

TM18 Heavy-Duty Right-Angle Barrel-Mount Sensors

- Heavy -duty, die-cast metal housing with integral metal QD prevents sensor damage during machine assembly, transport, maintenance and operation
- Robust, all-metal, one-piece design easily fits in tight places for added sensor protection
- Specially designed optics and electronics provides reliable sensing without adjustments
- All models have an extremely bright LED red sensing beam for easy sensor alignment
- Completely epoxy-encapsulated electronics deliver superior durability, especially in harsh sensing environments

WL50S Stainless Steel Worklights

Very bright sealed spotlight for general task lighting applications.

- Highly concentrated, focused light available in 3 colors (white, red or green)
- Lenses come in three angles with an even pattern of light and no shadows
- 12 to 30V dc operation
- Cabled and quick-disconnect models

- Chemically resistant 316 stainless steel housing

Additional solutions for the challenging needs of the food and beverage industry can be reviewed in Banner's guide ***Industry Solutions: Food and Beverage***. Click [here](#) to read more.

PRIME sales representatives are available to visit your facility and review your applications. To schedule a visit, discuss your application with a representative, or request a quotation, please contact Prime by phone at 201-262-9090 or by email at sales@prime-industrial.com
